

Jim Dalton and Maggi-Smith Dalton. This husband-and-wife team is well-known for innovative, entertaining, educational, and creative programming. Sponsors and audiences alike have praised their solid research, entertaining delivery, and "dazzling," "spellbinding" musical abilities; and have called them "a national treasure."

The Daltons specialize in performing 19th- and early 20th-century music in historically informed style on period and period-appropriate instruments. They have performed, nationwide, on commercial and public radio and TV.

Jim is on the full-time faculty of the Boston Conservatory, where Maggi also lectures. Honored by several state arts and cultural agencies, they have recorded four albums, and have written and published original compositions and historical/musical articles and books.
